

SBA 8(a), woman-owned

OUR MISSION To develop and maintain strong client relationships and customer satisfaction while providing full-service business solutions. We focus on our core values—integrity, commitment, and teamwork—and integrate these values into each solution to ensure that customer goals and objectives are achieved.

HERNDON SOLUTIONS GROUP (HSG), is an SBA 8(a), woman-owned business, founded in 2008 to provide environmental services, emergency response planning, and sustainability management. Through a plan of steady growth, HSG has expanded its core services to include occupational and environmental health, fitness, injury rehabilitation, and employee assistance programs. We provide innovative services and solutions, tailored specifically to our customers' needs, while minimizing organizational risks.

ENVIRONMENT AND SAFETY

HSG manages the health and wellness of the environment through compliance surveys, performing site assessments, conducting ecological sampling analysis and monitoring, managing administrative records, and implementing management systems.

EMERGENCY PLANNING

HSG assists organizations with assessing overall preparedness and their ability to respond to and recover from emergencies by conducting assessments, preparing response plans, typing and managing resources, and providing training.

OCCUPATIONAL AND ENVIRONMENTAL HEALTH

HSG manages the health and wellness of employees by providing occupational health, aerospace medicine, emergency medicine, industrial hygiene, health physics, fitness, injury rehabilitation, wellness, and employee assistance services.
